Led Stocky's design and build: architecture, data model, auth, deployment on a VPS.

Backend Developer (team project)
2026 (in progress)

Easy Klin

NestJS API tickets with tests, on GitLab with CI and SonarQube.

Freelance Full-Stack Developer
Ongoing

Independent

Web apps and sites for local businesses: documents, back office, quiz, clinic.

SELECTED WORK

Stocky
Lead developer · Team of 3

Stock, sales and repairs for electronics shops. One platform, separate data per shop.

NestJS · Prisma · PostgreSQL · Next.js · TypeScript — **stocky.host**

Oasis-Doc
Solo developer

Official documents, ordered online. Diploma equivalence is the flagship service.

React · Vite · Tailwind CSS · Supabase · Cloudflare Pages — **oasis-doc.pages.dev**

Easy Klin
Backend developer · Team project

Laundry platform for multi-branch businesses. I built parts of the NestJS API.

NestJS · Next.js · Flutter · GitLab (self-hosted) · CI/CD

SmartQueue
Project lead · Team of 4

Smart queue system in microservices. I framed the project and led a team of 4.
